Interview with Loki

It's like,

shit, man,

y'all are taking this

too seriously, you know?

& sometimes they're just

asking too much--

as if letting my soul die

will somehow help the world.

I'm not the killer here.

I'm only the one

trying to tear the bitches down,

but then,

the uncertainty principle

always did freak them out.

Look at me. Do I seem

unhinged to you?

No.

I'm unfettered.
